2.45 PM 4.00 PM	Valedictory and Certificate Distribution & Closing	Dr Russell DSouza Dr K Gireesh Dr Derek DSouza Dr Santosh Salagre Dr M Sreenivas
4.00 PM 4.30 PM	TEA	

Karpaga Vinayaga College of Nursing

(Recognized by the Indian Nursing Council and Affiliated to The Tamil Nadu Dr. M.G.R Medical University, Chennai)

G.S.T Road, Chinakolambakkam, Palayanoor (P.O), Madhuranthagam (Tk.)
Kanchipuram District, Tamil Nadu - 603308. Phone: 044-71565287/71565288

	Professional competence requires the habitual and judicious use of knowledge, communication, technical skills, clinical reasoning, emotions, values and reflection in daily practice for the benefit of the individual and community being served. Effective communication strategies in clinical practice are vital in ensuring safety of patients, safety of the healthcare professionals in clinical practice and quality assurance of the highest standards in healthcare management. Application of ethical communication techniques impacting and affecting safety and quality will be demonstrated. Effective communication is one of the important mandates of the reformed DNS curriculum. This is important in fostering an excellent Doctor-Patient relationship and is vital in ensuring that patient safety and the highest quality of patient care is maintained. Professionalism in healthcare settings- Values and Principles that need to be followed and the means to achieve them	
3.45 PM 4.30 PM	Activity on Ethics, Professionalism & Communication PROTECTION OF PATIENTS IN HEALTHCARE RESEARCH (Article 19) Application to patient safety and quality; Reducing errors, protecting patients and participants in healthcare research. Teaching Learning Methodology (Lecture and Role play) Application of the various bioethical principles in planning and conduct of biomedical research. The need to ensure that the aspects of autonomy, consent, privacy & confidentiality, benefit & harm, distributive justice and non-maleficence are upheld. This is ensured by the Institutional Ethics Committee. All these result in better patient safety and highest standards of patient care. Functioning of Institutional Ethics Committee	Dr Princy Palatty Dr Santosh Salagre Dr M Sreenivas

DAY 3 REFORMED BIOETHICS TEACHING LEARNING METHODOLOGY AND APPLICATIONS IN CLINICAL PRACTICE

TIME	TOPIC	FACULTY
9.00 AM 10.15 AM	STREET PLAY BY PARTICIPANTS Teaching Learning Methodology: Participatory theatre and experiential learning strategies in knowledge transfer. Learning objectives: To understand the meaning of the words "positive discrimination" and the negative effects of stigmatisation and discrimination in healthcare management and planning as relevant to clinical practice. The participants of the street play will lead a discussion on experiential learning.	Dr Russell D'Souza Dr Princy Palatty

Karpaga Vinayaga College of Nursing

G.S.T Road, Chinakolambakkam, Palayanoor (P.O), Madhuranthagam (Tk.)
Kanchipuram District, Tamil Nadu - 603308. Phone: 044-71565287/71565288

	This UNESCO Bioethics Core Curriculum can provide an incentive to start introducing such teaching. Its contents are based on the principles adopted in UNESCO. It therefore does not impose a model or specific view of bioethics, but articulates ethical principles that are shared by scientific experts, policy-makers and health professionals.	
10:15 AM 11:45 AM	APPLICATION OF HEALTHCARE ETHICS Illustratory and Experiential learning of the application of the principles of Healthcare Ethics Autonomy and Consent in clinical practice (Article 5, 6, 7) Teaching Learning Methodology (Role play & Group discussion) Respect for personal autonomy; Respect for Autonomy not absolute - Mill's harm principle, Autonomy, Truth Telling, Difficult choices, 3 elements of informed consent; Exceptions to the informed consent standards; Proxy decision making; medical informed consent	Dr Princy Palatty Dr Santosh Salagre
11:15 AM 11:30 AM	TEA BREAK	
11:30 AM 12:30 PM	Emotional Intelligence, Understanding the Self; Identifying & Solving Ethical Dilemmas in clinical practice. The role of emotional intelligence and understanding our emotions as way of becoming better healthcare professionals and in the clinics. Guidelines to practise self-management, self-awareness, self-regulation, self-motivation, and empathy. The benefits of emotional intelligence can be used in personal interaction with peers, patients and students. This will strengthen the doctor-patient interface and ensure better communication and patient quality care. Demonstration of Emotional Intelligence in clinical practice	Dr Russell DSouza Dr Santosh Salagre Dr Princy Palatty
12:30 PM 1:30 PM	Ethical Decision making & conducting Ethical Case Deliberation in clinical practice (Article 18, 19) Teaching Learning Methodology (Ethical Case Deliberation) The committing from a stance of joint responsibility for patients (Beneficence) and the values of medical ethics in general. Common theory of deliberation drawing on 'Reflective equilibrium' 3 main modes of reasoning: Specification, Casuistry and Balancing of values. This form of deliberative democratic decision making ensures "Accountability for reasonableness" and attention to moral residue. It ensures the key elements of Transparency, Rationality and Revisibility are maintained while coming to an ethical decision. Demonstration of the deliberations of Clinical Ethics Committee (Hospital Ethics Committee)	Dr Russell DSouza Dr Princy Palatty Dr M Sreenivas
1:30 PM 2:15 PM	LUNCH	
2:15 PM 3:15 PM	Integrating ethics into clinical practice (at the bedside) Teaching Learning Methodology (Lecture & group activity) A methodology for the clinicians for carrying out assessment and deliberation for teaching bioethics during clinical ward round	Dr Russell DSouza
